

Suzuki Safaris

Suzuki Safari is a Joint Venture Between African Expeditions and Suzuki Auto South Africa offering our expert travel services to all Suzuki Owners without the hassle of taking everything on by yourself, that's where we come in.

10 November - 4 December 2025

Zambia's Scenic

Wonders Safari 2025

25 Days of getting lost in the Heart of Africa, does it get any better? Join us on this epic and bucket list adventure, as we explore the magnificent Zambia and all its hidden and unknown glory. **We provide all camping gear as well as meals (Breakfast/Brunch and Dinner Daily).** – So you travel light and **do not need any camping gear.**

You will need a Passport.

What's in store...

As **30% of Africa's water resides in Zambia** there is no shortage of mighty rivers, majestic waterfalls and incredible hidden lakes, so in short, why would you not want to visit this amazing country?

We officially start our journey in Kasane Botswana and make our way North into Zambia where we take a turn off the beaten track and make ways adventure bound towards **unknown magical waterfalls**, some of the best scenery anywhere on Earth!

These **secluded waterfalls** hold true as some of the most spectacular vistas and also provide great swimming holes as well as twisting and turning hiking trails for the adventure enthusiast. We make an expedition towards the mysterious **ancient Lake Tanganyika** and enjoy complete silence, rest and relaxation on the shores of this water giant.

This is designed **as a great Family Friendly adventure** and we would love to make you a part of it and enjoy this spectacular adventure with us.

Quick Overview:

Meet and Greet in Kasane, at a lodge of our choice, and of course dinner is on us. We will do a full detailed briefing on what's in store for our adventure ahead.

We cross into Zambia to Livingstone giving the opportunity to visit the Victoria Falls and to those who wish there are many, many other activities available.

An early start marks our 1st travel day into Zambia passing through the Capital Lusaka and making our way to a guest farm with the best savory pies anywhere on the continent! We spend the night in a basic yet neat chalet giving us a good head start for the next morning.

We take a relaxed start to our 1st waterfall, Kundalila Falls. A very basic campsite gives us access to the falls with magical scenery, great hiking and some of the best swimming holes anywhere!

Now the adventurous part starts, we swing off the main road onto winding 2 tracks that snake through the forest to reach the mysterious hidden gem, Lake Waka Waka. Again a basic campsite gives us access to the Lake in all its splendor, great for swimming!!

Taking more winding trails we then head from Waka Waka towards the Livingstone Memorial where Dr David Livingstone spent his final moments and had his heart buried. After paying our respects to this legendary traveler we make our way Northbound and will spend a magical bush-camp under the stars en-route to the Bangweulu Flood Plains.

An early start has us making our way over the Magnificent Mukuku Bridges panning about 20km over the beautiful Bangweulu Flood Plains. After enjoying probably one of the most scenic drives found anywhere, we make our way towards Ntumbachushi Falls where we camp right next to the Main Falls, and enjoy yet another perfect night in Africa. This will be our home for 2 nights, giving a full day to enjoy this amazing area.

Quick Overview:

A very relaxed start takes us on beautiful dirt roads towards Lumangwe Falls where we will be spending our following two nights camping next to the "Mini Vic Falls". Ahh - a full day of rest and relaxation next to the majestic Lumangwe Falls, with ample hiking as well as a 4x4 drive to the very beautiful neighbouring Kabweluma Falls - this can be quite relaxing as well as an adventure-filled day.

The following day we have a short but exciting, isolated drive to Kundabwika Falls where we'll spend our next evening.

Time to really go off the beaten track even further! We make our way further North to the ancient Lake Tanganyika - this splendorous tropical paradise is where we will be spending our next 3 nights camping on the banks on the 2nd oldest and 2nd largest fresh water lake on Earth - we have the option of taking a boat safari into the Sumba National Park and do some game viewing, or do snorkeling and fishing in the pristine water.

Starting to make our way back South and into the spectacular area surrounding Kapishya Hot Springs, where we will be spending our following 3 evenings. We spend the days relaxing in the amazing Hot Springs, with the option of visiting the famous Africa House and its rich history, another day in paradise. If I had to imagine what the garden of Eden looked like, I see Kapishya.

Leaving the very best for last – a visit to Kasanka National Park to witness the biggest mammal migration in the world -10 Million Straw coloured Fruit bats with a wing span of 1m roosting near the Musola River. Between 18h00 and 18h30 they take to the sky to return early the next morning. For an amazing 20 – 30 minutes the sky is filled as far as you can see with squadron upon squadron of Fruits bats!

Then starts the drive back South, departure Livingstone via Lusaka, where we will spend our last night in Zambia before taking on the final stretch of our journey back home.

Safari Highlights:

- Victoria Falls
- Kundalila Falls
- Kasanka National Park
- Ntumbachshi Falls
